OBJECTIVE

Dedicated Data Science enthusiast with hands-on experience in machine learning, data analysis, and Python programming. Proven ability to complete projects that enhance data accuracy and deliver actionable insights. Seeking to contribute my skills in a challenging data science internship.

SKILLS

- **Programming Languages:** Python (Core, OOP)
 - **Data Science:** Data Analysis, Data Visualization, Machine Learning, Data Cleaning
 - **Tools & Libraries:** Jupyter Notebook, Pandas, MySQL, Matplotlib, Scikit-learn, GitHub, Web Scraping
-

PROFESSIONAL EXPERIENCE

CodSoft IT Services and IT Consulting
Data Science Intern

July 2024 - Aug 2024

- Participated in a virtual internship (4 week) focused on applying data science techniques in real-world scenarios.
 - Contributed to 4 projects, including predictive modeling and data visualization tasks, using Python and related tools
 - Collaborated with team members to refine machine learning models and enhance project outcomes.
-

EDUCATION

Bachelor's Degree in Computer Applications (BCA)
Swoyambu International College, Lagankhel
March 2022- March 2026 (Expected)

CERTIFICATIONS

- IBM Data Science Specialization (August 2024)
- Machine Learning with Python (July 2024)
- Data Analysis with Python (May 2024)
- Databases and SQL for Data Science with Python (April 2024)
- Data Science Methodology (March 2024)
- Python for Data Science, AI & Development (March 2024)
- Tools for Data Science (March 2024)
- What is Data Science? (February 2024)
